

## Programming Report

### General Order Information

**Customer Name:** Gregory HAWKINS

**Radio Info:** Motorola HT1250  
Model H25SDF9AA5AN – Serial Number 749TJEG389

**Total Channels:** 16  
**Total MDC IDs:** 1  
**Total Scan Lists:** 1  
**Total Pager Channels:** 1

**Radio Firmware:** **Customer's firmware version:** R05.13.04  
**Latest firmware version:** R05.18.01  
**Upgrade status:** Firmware has been upgraded to latest version

**Programming Charge:** 59.99  
**Shipping Charge:** 14.08

---

**Total Charges:** **\$74.07**

### Button & Switch Assignments

**Top Button (Red):** Light On/Off

**Side-Upper Button:** Short Press = Monitor, Long Press = Sticky Permanent Monitor

**Side-Middle Button:** Toggle High/Low Power

**Side-Lower Button:** Short Press = Scan On/Off, Long Press = Nuisance Delete (aka Scan Lock-Out)

**Rotary Selection Knob:** Channel Selection with Simultaneous Backlight Activation

**Front Button P1:** Volume Set Tone

**Front Button P2:** Zone Select

**Front Button P3:** Toggle Repeater/Direct

**How to switch zones:** Press **P2** key, **arrow-up** or **arrow-down** to desired zone, then press **≡/•** key.

**How to switch channels:** Use rotary selection knob.

**See next page for zone and channel configuration information.**

**Scan List Note:** The selected channel, as per the rotary selection knob, maintains scan priority. Transmissions received on this channel will take precedence over any other channels.

**Viewing channels in the current scan list:** From the menu, select Program Lists -> Scan List -> View List. Use the up/down arrows to browse the list.

**Temporarily deleting channels in the current scan list:** Long-press the Nuisance Delete button while the nuisance channel is active. This will temporarily remove it from the Scan List. This will be reverted at the next radio power off/on.

**Permanently adding channels to the scan list:** From the menu, select Program Lists -> Scan List -> Add Entry. Use the up/down arrows to location the entry you want to add and then press  $\Xi/\bullet$  key. "Entry Saved" will appear on the screen.

**Permanently deleting channels in the current scan list:** From the menu, select Program Lists -> Scan List -> Delete Entry. Use the up/down arrows to location the entry you want to delete and then press  $\Xi/\bullet$  key twice. "Entry Deleted" will appear on the screen.

**MDC ID Note:** Radio will transmit your MDC identifier each time the push-to-talk button is pressed as indicated below. Wait for the talk permit tone to stop before you begin speaking.

**Pager Channel Note:** Pager channel will remain silent until dispatch tone sequence: 1080 Hz, 1182 Hz. Radio will sound alert beep tone and open to radio traffic.
